**Queensborough Community College
The City University of New York**

**MINUTES
of the February 14, 2017
Academic Senate**

President Diane Call called the fifth regularly scheduled meeting of the Academic Senate to order at 3:15 PM

I. Attendance:

65 votes were recorded at the time attendance was taken; 69 members of the Academic Senate were present during the meeting.

Absentees: David Lieberman, Franca Ferrari, Urszula Golebiewska, Mangala Tawde, Peter Irigoyen, SG Executive VP, SG Administrative VP, SG President Pro Tempore, SG VP for Part-time Students.

II. Consideration of minutes of the December 13, 2016 meeting of the Academic Senate:

A motion was made, seconded, and adopted 64-0-2 to approve the December 13, 2016 minutes as presented (see *Attachment A of the February 14, 2016 Agenda*). Abstentions: SG Programming VP and SG VP Evening Students. Did not vote: Mi Seon Kim, Jannette Urciuoli and Pedro Irigoyen.

III. Communications from:

1. President Call

President Call referred to her written report (*Attachment B of the February 14, 2017 Agenda*.) For the full report, visit: http://www.qcc.cuny.edu/governance/academicSenate/docs/ay2016-17/February_2017/Attachment-B-Presidents-Report-February-2017.pdf

2. Senate Steering Committee Report

Chair Dr. Peter Bales referred to the written report (*Attachment C of the February 14, 2017 Agenda*). For the full report, visit: http://www.qcc.cuny.edu/governance/academicSenate/docs/ay2016-17/February_2017/Attachment-C-SteeringCommittee-Report-February-2017.pdf

Senator Clingan asked for an update about the communication sent to the CUNY central office regarding the lack of a CUNY bullying policy and whether there had been a reply. Upon learning there had not been, Clingan then suggested that the Steering Committee provide regular updates and make periodic follow-ups until there is a reply. Chair Bales agreed to that request.

IV. Monthly Reports of the Committees of the Academic Senate

1. Committee on Committees: The Academic Senate received the Monthly Report for January 2017 (*Attachment D of the February 14, 2017 Agenda*).

2. Committee on Curriculum: The Academic Senate received the Monthly Report for February 2017 (*Attachment E of the February 14, 2017 Agenda*) and acted on the following items:

1. Course Revisions

DEPARTMENT of ART AND DESIGN

56 ARTS-130 Art for Teachers of Children
57 ARTS-131 Art for Teachers of Children II
58 to
59 ARTS-130 Art Methods for K-8 Curriculum
60 ARTS-131 Art Methods for K-8 Curriculum II

61
62 A **motion** was **made, seconded**, and **adopted 67-0-0** to **approve** changes to ARTS-130 and
63 ARTS-131 in the Department of Art and Design (*See Attachment E of the February 14, 2017*
64 *Agenda*). Did not vote: Joseph Culkin and Anthony Kolios.

65
66 **2. Program Revisions**

67
68 **DEPARTMENT of ART AND DESIGN**

69
70 Program revision Digital Art and Design (*See Attachment E of the February 14, 2017 Agenda*).

71
72 A **motion** was **made, seconded**, and **adopted 68-0-0** to **approve** changes to the Digital Art and
73 Design program in the Department of Art and Design (*See Attachment E of the February 14,*
74 *2017 Agenda*). Did not vote: Anthony Kolios.

75
76 **V. Old Business**

77
78 None.

79
80 **VI. New Business**

81
82 Resolution to modify the QCC Mission Statement (adding “critical thinking”) (*See Attachment F of the*
83 *February 14, 2017 Agenda*).

84
85 A **motion** was **made, seconded**, and **adopted 69-0-0** to **approve** adding “critical thinking” to the
86 QCC Mission Statement (*See Attachment E of the February 14, 2017 Agenda*).

87
88 The “further resolved” of the Mission Statement resolution (Attachment E) also included a list of goals to
89 support the Mission Statement. The goals were taken separately in a second vote.

90
91 A **motion** was **made, seconded**, and **adopted 66-0-1** to **approve** adding goals to support the
92 QCC Mission Statement (*See Attachment E of the February 14, 2017 Agenda*). Abstention:
93 Anthony Kolios. Did not vote: Gilmar Visoni and George Muchita.

94
95 Dr. Karen Steele updated the Senate of the the work of the General Education Assessment Task Force,
96 referring the Senate to a section relating to the task force in the President’s Report (Attachment B).

97
98 Vice Chair Tai presented the monthly report of the Committee on Food Insecurity (Attachment G),
99 mentioning that the Bylaws Committee was to take up the issue of making the Committee on Food
100 Insecurity a permanent standing committee of the Academic Senate.

101
102 The meeting was adjourned at 3:50 PM

103
104 Respectfully Submitted,
105 Joel Kuszai

106 Secretary, Steering Committee of the Academic Senate

President's Report to the Academic Senate

March 14, 2017

ENROLLMENT MANAGEMENT UPDATE

- The first two phases of freshmen have been received by the Admissions Office. Acceptance notifications have been sent to approximately 5,500 students. The first New Student and Family Welcome Session is scheduled for March 7th. Newly admitted students and their families will have an opportunity to learn more about the College, including the Academies and special programs like ASAP, CUNYStart, and College Discovery. Financial Aid staff will be on hand to help students apply for aid. Admissions and New Student Engagement staff will assist students with testing appointments and other enrollment steps.
- Academic Advisement for continuing students will begin Mid-March. Advisement and Registration for new students will begin April 10th. Advisers will outreach to their caseloads through Starfish and phone calls. New students will be invited to meet with an adviser through Hobsons emails.

RESOURCE ALLOCATION PLANNING FOR FISCAL YEAR 18

- QCC's annual Resource Planning & Allocation Process for Fiscal Year (FY) 18 has begun. By early March, all divisions and departments will have been provided with historic information and templates to assist in preparing budget requests for the coming academic year. In keeping with our practices, this process is designed to ensure our resources support our highest priorities, as reflected in the Strategic Plan developed by the College Advisory Planning Committee. Through the respective Vice President, each Division will submit budget request proposals for new funding related to strategic priorities and operational needs. These proposals will be reviewed and prioritized by the Cabinet. The Budget Subcommittee of the Faculty P&B Committee and the QCC Academic Senate Committee on Budget Advisement will be consulted prior to our final expenditure plan for FY 18.

ASSESSMENT AND ACCREDITATION

Middle States

The Middle States self-study working group co-chairs are confirmed, and the call for volunteers to the entire campus went out back in February. The results of the survey are being tabulated. An email will soon be sent out to each working group with the names of the members of that group. Work will begin in fall 2017. The self-study steering committee, consisting of the three executive co-chairs, the working group co-chairs, the vice president for academic affairs, the vice president for marketing and communication, and the director of institutional research, will begin meeting this semester to help the executive co-chairs to develop a self-study design, which is required by Middle States. A draft design is due in middle April. The self-study design guides the work of the entire project. Our Middle States liaison, Dr. Heather Perfetti, will come to campus May 4 on a preparation visit whose primary goal is to provide feedback to the steering committee on the draft of the self-study design submitted.

Academic Program Review

Four academic programs are currently under review: Engineering Science, Health Sciences, Liberal Arts and Sciences (Math and Science), and Medical Office Assistant. Colleagues from six different academic departments are collaborating on these efforts, including Changiz Alizadeh, Mathematics and Computer Science; Michael Altimari, Biological Sciences and Geology; Raul Armendariz, Physics; Urszula Golebiewska, Biological Sciences and Geology; Dominic Hull, Chemistry; Dave Klarberg, Biological Sciences and Geology; Christina Manzo, Business; Kim Riegel, Physics; Jeff Schwartz, Engineering Technology; Paul Sideris, Chemistry; and Kostas Stroumbakis, Mathematics and Computer Science. The program review reports will be completed by the end of the academic year; site visits by external reviewers will take place in fall 2017, and action plans for each program will be developed at that time.

Assessment Institute

Once again, the Assessment Institute took place this semester, the last of four sessions on March 3. Faculty participants are now implementing the assessment plans that they have developed. Assessment reports are due at the end of the semester. This semester's institute included 18 faculty participants spanning 11 departments.

General Education Task Force

Task Force members have reviewed results of the Fall 2016 General Education assessment (566 artifacts were each scored twice) and trends over the past three assessment periods. Participating faculty are being sent individual reports on their students' aggregate scores. Faculty participating in the Spring 2017 assessment will be submitting student work (artifacts) through Blackboard and Aqua. The Task Force is

revising the Information Management rubric to include “digital technology,” and is organizing support for developing rubrics for the revised disciplinary outcomes in the sciences, social sciences and history, and the humanities and the arts.

STUDENT RESOURCES

- **STEM Waiver-Winter Session 2017**

A total of 894 applications were received for the STEM waiver program for the Winter 2017 session. Applications approved totaled 435, with 407 applications denied due to the fact that the course selected was not part of the students’ program of study. Also, 52 students withdrew their applications prior to the course starting. Students earned 1168 STEM credits with a total cost of \$246,225. A total of 97.50% of the students completed the course with 2.5% of the students withdrawing.

Funding will be available for Summer Session 1; however we are waiting for a decision from the Mayor’s office as to additional funding for Summer Session 2 and the academic year 2018.

- **Milestone Scholarship-Winter Session 2017**

A total of 187 students were identified as candidates qualifying for the Milestone Scholarship. Students were contacted by letters sent to their home as well as by Tigermail. We received 23 applications, however 18 students completed the session, 4 students never registered for the course and 1 student received a WU. Students earned 61 credits.

- All currently enrolled students wishing to receive financial aid for the Fall 2017 and/or Spring 2018 semesters were advised to **complete the 2017-18 Free Application for Federal Student Aid (FAFSA)** by the Priority Filing Deadline Date of March 15, 2017. Students who miss this date are encourage to complete the FAFSA immediately. Workshops hosted by the Office of Financial Services are available for those students in need of assistance. Additional information can be found at www.qcc.cuny.edu/financialaid.

- The **QCC Counseling Center now provides 24/7 emergency services through our after-hours service provider, ProtoCall**. If you have an emergency outside of the Counseling Center hours, please call ProtoCall at 855-582-6069 to speak with a licensed mental health professional.

- QCC's Lambda Sigma Chapter of the **Phi Theta Kappa International Honor Society** is accepting new membership for the Spring 2017 semester. Membership in the honor society provides opportunities for students to grow as scholars and leaders by way of networking, scholarships, job skills, leadership, community-building, and mentorship. Additional information, including eligibility requirements and application deadline date, can be found at www.qcc.cuny.edu/ptk.
- Faculty and staff are asked to encourage our students to avail themselves of the valuable and free resources through the **QCC Single Stop Program**, located in the Library Building, Room 432-A. Services provided include (but are not limited to) financial benefits screening, financial counseling, legal assistance, tax preparation services, and more. **Now through April 18, 2017, Single Stop will make Free Tax Preparation available for QCC students in the Student Union, Upper Level. In addition, we will have one Saturday session on March 11, 2017.** Please encourage students to take advantage of this free service. Additional information about this program and hours of operation can be found on their website at <http://www.qcc.cuny.edu/singlestop>.
- **The Freya Moskowitz Stern Scholarship and The Finch College Alumni Scholarship** are now available for interested students. Both scholarships, worth \$5000, are awarded to second-year female community college students who will graduate from QCC at the conclusion of Spring 2017 and transfer to a four-year university for the fall 2017 semester. For additional information, including eligibility requirements and application deadline dates, please click on the following link: http://www.finchcollege.org/html/PDFs/Scholarship_Criteria.pdf.
- The application period for the **2017 University Student Senate (USS) Scholarships** is now open! Students can either apply for the Ernesto Malave Merit Scholarship or the Donald and Mary Ellen Passantino Scholarships (available to international students and students with disabilities only). Completed application packets must be submitted to the Office of the Vice President for Student Affairs by Friday, April 21st. For additional information, please visit <http://www.qcc.cuny.edu/scholarships/index.html>.
- The **Guttman Transfer Scholarship** offer benefits for outstanding CUNY community college students who transfer to an eligible CUNY senior college. Guttman Scholars receive up to \$4,000 paid over two years. CUNY is able to offer these scholarships through an endowment provided by the Stella and Charles Guttman Foundation. The application deadline date is Wednesday, March 8th. For additional information, please visit <http://www2.cuny.edu/financial-aid/scholarships/guttman-transfer-scholarship/eligibility/>.

- The **Phi Beta Kappa Association of New York Scholarship** is now available for interested students. This scholarship, worth \$1,000, will be awarded to two (2) community college graduates who successfully transfer to a four-year institution for Fall 2017. The deadline for students to submit their application is Monday, April 3, 2017. Additional information, including eligibility requirements, can be found at <http://www.qcc.cuny.edu/scholarships/>.
- The University is continuing the initiative in which CUNY has partnered with **The Dream.US Scholarship Program** to assist undocumented students in obtaining scholarships. The Dream.US Scholarship Program provides college scholarships to highly motivated undocumented students who entered the United States as minors and who, without financial assistance, cannot afford a college education. The next application cycle is currently open, with a deadline of March 8, 2017 for the Fall 2017 semester. Please refer students to apply at www.thedream.us.
- **The National Puerto Rican Day Parade 2017 Scholarship Program** is now accepting applications from prospective applicants. The scholarship is open to currently matriculated full-time students who possess a cumulative GPA of 3.0 or higher who are of Puerto Rican descent and are giving back to their respective communities through volunteer/community service. Completed application packets should be submitted electronically to [NPRDP.Scholars@gmail](mailto:NPRDP.Scholars@gmail.com) by the deadline date of **Friday, March 31st**. For more information, including eligibility criteria and required documents, please visit <http://www.nprdpinc.org/sponsorship/scholarship/>.
- The **Carroll and Milton Petrie Foundation renewed QCC's three-year grant**, of up to \$100,000 per year, for three years, to provide **one-time, emergency grants** to students in good standing with **short-term financial emergencies** to enable them to remain in school, rather than being forced to leave or drop out. The college successfully awarded \$300,000 to Queensborough students in need through December 31, 2016. Ms. Veronica Lukas, Executive Director of Student Financial Services, will be sending periodic e-mail reminders to the college community outlining the grant eligibility and encouraging faculty and staff to refer students to apply. Ms. Karen O'Sullivan, Associate Director of Student Financial Services, will serve as the Grants Manager for this campus initiative. Please refer students with short-term financial emergencies to Ms. O'Sullivan at your earliest convenience. Additional information can be found at www.qcc.cuny.edu/scholarships.

BTECH UPDATE

- BTECH's Interim Acting Principal, Patrice Henry, was introduced to the NYC DOE, CUNY Early College Initiative and QCC campus leads' staff in February. She will visit the campus and meet with Professors Birchfield and Ford in early March to learn about our programming and curriculum, the scope and sequence, the Indicators of Student Readiness model and the administrative processes – i.e. scheduling/enrollment/withdrawals/grading, etc. that support the academic program here at QCC. On March 23rd at 1 pm in M-136 there will be a presentation by SAP and other technology executives on a study called, **Digital Leaders 2020**. All students and faculty in Business, Engineering Technology and Computer Science are invited to attend to learn about the use of digital technology and data analytics in decision making for leaders of the future.

UPCOMING EVENTS

Office of Academic Affairs

- The Office of Academic Affairs will host a series of workshops this semester to support faculty in the efforts for reappointment, tenure and promotion. The workshops are:

Practice Sessions on Presenting Before Faculty Personnel and Budget Committee for Full Professor - Facilitated by Dr. Julia Carroll, Dr. Jilani Warsi, Ashlie Klepper and Franca Ferrari-Bridgers – Thursday, March 2, 2017 and Thursday, March 16, 2017, 1:00-4:00 p.m., President's Conference Room, A-502D.
- **Newly Tenured Faculty** will be celebrated on Tuesday, March 14, at a reception sponsored by the Office of Academic Affairs, at 4:30pm in the Oakland Dining Room and Loggia. Twenty-three colleagues from 9 academic departments will be honored as awardees of tenure and certificate of continuous employment (CCE). They are Dr. Rose-Marie Aikas (Social Sciences), Dr. Bjorn Berkhout (Music) , Dr. Naydu Carmona (Biological Sciences and Geology), Mr. Steven Cheng (Mathematics and Computer Science), Ms. Danielle Cifone (Mathematics and Computer Science), Dr. Steven Dahlke (Music), Dr. Sunil Dehipawala (Physics), Professor Leslie Francis (Business), Dr. Eva Goldhammer (Social Sciences), Professor Stephen Hammel (Business), Ms. Ruchel Hammer (Biological Sciences and Geology), Ms. Li Xu Li (Mathematics and Computer Science), Dr. Anissa Moody (Social Sciences), Mr. Marlon Moreno (Chemistry), Dr. Gheorghe Proteasa (Biological Sciences and Geology), Mr. Terence Rohan (Biological Sciences and Geology), Dr. Julia Rothenberg (Social Sciences), Dr. Andrea Salis (Health, Physical Education and Dance), Mr. Kenneth Schmidt (Mathematics and Computer Science), Dr. Jed Shahar (English), Dr. Howard Sporn (Mathematics and

Computer Science), Dr. Kostas Stroumbakis (Mathematics and Computer Science, Dr. James Timbilla (Biological Sciences and Geology).

Institutional Advancement

- The **Spring Presidential Lecture Series** will be held on Wednesday, March 29th at 4:30 p.m. in room M-136 of the Medical Arts building. C. Julian Jiménez, Assistant Professor, Speech Communication and Theatre Arts, will be discussing **“Playwriting as Activism: Advocacy Through Authenticity”**. He will illustrate how theatrical voices can ignite a social revolution within audiences by presenting truthful depictions of often stereotyped, frequently ostracized and historically disenfranchised communities.

Art Gallery

- The **QCC Art Gallery** will be opening an exhibition entitled, **Rewoven: Innovative Fiber Art**, on Thursday, March 30th at 5:00 p.m. This exhibit is an international collaboration between the QCC Art Gallery, the Kaohsiung Museum of Fine Arts in Taiwan, and the Godwin Ternbach Museum at Queens College. Twenty-four artists, whose commitment is to environmental conservation, will be presented in a convergence of painting, assemblage, and installation works. This exhibit will run through June 17, 2017.

KHC

- At the **Kupferberg Holocaust Center, The Jacket from Dachau: One Survivor’s Search for Justice, Identity, and Home** will continue to be on view **through June, 2017**. This original exhibition tells the story of Holocaust survival, chance encounters, and how a single artifact can weave a narrative of justice, identity, and a search for home. The exhibit is co-curated by Cary Lane, Ph.D., the KHC 2016-2017 Curator-in-Residence and assistant professor of English at Queensborough Community College. Please contact the Center to arrange a tour of the exhibit for your classes.
- **KHC Cinema Series this spring** includes screenings of various films pertaining to the Holocaust, Genocide, and human rights. You are invited to attend the screening of **Sometimes in April (2005)** on **Wednesday, April 5, 2017 at 12:10 p.m.** which follows the journey of two brothers before, during, and after the Rwandan Genocide.
- **On Sunday, April 2nd at 12:00 p.m.**, the **KHC** presents the **Annual Holocaust Freedom Seder in the Student Union**. Local Holocaust survivors are honored at this special commemorative event where we the Passover Seder held in the Munich DP Camp in 1946 after World War II is recreated. Tickets and more information available at the KHC website.
- The **KHC** continues the 2016-17 Colloquia awarded to QCC Faculty Coordinators: Dr. Aliza Atik (English), Dr. Kathleen Alves (English), and Dr. Mirna Lekic (Music). This

year's theme is **Fleeing Genocide: Displacement, Exile and the Refugee**. The fifth event, **The LGBT Refugee Crisis** will take place on Wednesday, March 24, 2017 at 12:20 p.m. There will be a panel discussion led by the Honorable Daniel Dromm, New York City Council Member, with an introduction by Dr. Amy Traver, Associate Professor of Sociology, Queensborough Community College.

2017 Partners for Progress Gala

Please join us on Thursday, April 27th at 6:00 p.m. for the **2017 Partners for Progress Gala** at Terrace on the Park. An “Early Bird” rate of \$125 per ticket is available to faculty and staff until Thursday, March 24th; after that date, tickets for faculty and staff will be \$150 (external supporters pay \$300 per ticket). Tickets may be purchased online at <https://www2.qcc.cuny.edu/advancement/galaTix.html> or checks may be made payable to the **QCC Fund, Inc.** and dropped off at the Advancement Office, Room A508.

The 2017 Partners of the Year

- **Thomas Chen**, Founder, President, and CEO of Crystal Window & Door Systems, Ltd., is a leading window manufacturer in North America and a long-time friend and supporter of Queensborough Community College. Thomas Chen founded his company in Queens and has established manufacturing operations in Chicago, St. Louis, and Riverside, CA. As our *Art Gallery Partner of the Year*, Thomas is committed to establishing an endowment for the preservation of the QCC Art Gallery's permanent collection.
- **Professor Emeritus Jackson and Mrs. Muriel Lum**, our *Community Partners of the Year*, have made a major gift to the Port of Entry program in honor of Jackson's parents. They identify with the struggles that immigrants face in terms of learning the language, the American culture, and obtaining skills to get gainful employment. They strongly believe in the power of education to advance in life and to be able to successfully compete in the workforce.
- **Benjamin L. Schwartz**, *Kupferberg Holocaust Partner of the Year*, is President and CEO of Metropolitan Property Services, Inc., a full-service, multi-family property management firm in Queens. Ben attended a continuing education course at Queensborough many years ago. He is an advocate of higher education and believes that the Kupferberg Holocaust Center helps open the minds of those who may never have experienced adversity, and hopes that the KHC programs will help to prevent future horrific events.

QPAC

- **On Sunday, March 19th at 3:00 p.m.**, Broadway powerhouse **Billy Porter** will be in concert making his QPAC debut. This Tony and Grammy Award-winning singer, composer, actor, playwright and director will encompass songs from his victorious roles on Broadway as well as a tribute to some of the artists and music that have inspired him along the way.
- **On Friday, March 24th at 8:00 p.m.**, the **New Shanghai Circus** will be performing live on our stage. These fearless performers bring us a new spellbinding show with athletes that defy gravity and execute breathtaking feats. Performers with boundless energy will bring over 2,000 years of Chinese circus traditions.
- **On Sunday, March 26th at 3:00 p.m.**, one of the greatest classical ballets of all time, **Swan Lake**, with magnificent music by Tchaikovsky, will grace our stage. The Russian National Ballet will present this full-length ballet in four acts.
- **The Company Men**, a four-man vocal group, will be performing on our stage on **Sunday, April 2nd at 3:00 p.m.** They will be performing classics from the last six decades featuring songs by The Four Tops, Michael Jackson, Michael Bublé, The Temptations and others.
- **In the Mood** will be returning to QPAC on **Saturday, April 8th at 3:00 p.m.** Much more than a concert, **In The Mood** presents a retro 1940's musical featuring singers and dancers, and the sensational String of Pearls big band orchestra.
- **On Tuesday, March 21st, Wednesday, March 22nd and Thursday, March 23rd, at 10:30 a.m.**, the Children's Book Club and Performance Series will continue with **The Paper Bag Players** in their new show, **Trip to the Moon**, for children ages 3 to 8.

Student Affairs

- The Office of Career Services will host the **QCC Job Fair** on **Wednesday, March 29th at 12:00 pm** in the Student Union Lounge. The fair will serve as a conduit for students to meet with potential employers from a wide variety of sectors including business, non-profits, healthcare, and government. For additional information, please click on the following link: <http://www.qcc.cuny.edu/careerServices/job-fair.html>.
- Student Government Elections will be taking place **Wednesday, March 29th – Wednesday, April 5th** in the lobby area of the Administration Building. Please encourage students to make their voices heard and cast their ballots for the 2017 SGA Executive Board. For more information, interested students can contact the Office of Student Activities at 718-631-6233 or visit their office located in the Student Union Building, Lower Level.
- The Office of Health Services will host the **CUNY QCC Wellness Festival** on **Wednesday, April 5th** at 11:00 am in the Student Union Lounge. At the festival, students, faculty, and

staff will be afforded free health screenings including (but not limited to): HIV/STI testing, Blood Pressure, Health Insurance Enrollment, Vision Testing, and much more. For additional information, please visit <http://www.qcc.cuny.edu/Calendar/events/CUNY-QCC-Wellness-Festival-04-05-2017.html>.

- On *Thursday, April 6th*, the Office of Career Services will be hosting its annual *Etiquette in Action: A Business Dining Experience*. Interested students must apply in person at the Office of Career Services, located in Library Building -Room 429 by March 21st. For additional information, please visit <http://www.qcc.cuny.edu/careerServices/etiquette.html>.

**STEERING COMMITTEE OF THE ACADEMIC SENATE QUEENSBOROUGH
COMMUNITY COLLEGE, CUNY
MONTHLY REPORT
March 14, 2017**

All positions in the QCC Academic Senate and its committees are currently filled.

Thanks to the efforts of the Committee on Committees, the nomination and selection process for Senate committees is well underway.

This year there will be four vacancies on the COC as of the April meeting. These seats will need to be filled at the April meeting.

In addition, nominations are now closed for the election of three year terms to the Academic Senate: Faculty Member-at- Large (18 candidates for 14 open positions). Candidates' personal statements are on the Senate's page of the college website. For examples, please visit <http://www.qcc.cuny.edu/governance/academicSenate/CandidatesforSenateMemberships.html> and click on the drop-down menus at the bottom of the page. Voting is scheduled to start on March 6th and end on March 20th.

On behalf of the Subcommittee on Food Insecurity, the Steering Committee would like to thank colleagues across the campus and student leaders of Queensborough's Student government and our student associations--especially our Lambda Sigma Chapter of Phi Theta Kappa--for everyone's generous donations to the Lucille A. Bova Food Pantry during our Share the Love Food Drive during the month of February. March brings us a "Spring Ahead" food drive.

The Committee on Academic Development, chaired by Tirandai Hemraj-Benny, is examining the current student evaluation form. The members of that committee have prepared a survey of faculty regarding the student evaluation form. The Steering Committee asks that Senators please check out the survey and reply to us before March 21 with any comments or feedback. The link can be found here: <https://goo.gl/forms/9ORRq0iqXthezRBx2>

**QUEENSBOROUGH COMMUNITY COLLEGE
THE CITY UNIVERSITY OF NEW YORK**

Report to the Academic Senate

February 27th, 2017

From: Prof. Christine Mooney, Chairperson of the Committee on Committees

To: Dr. Joel Kuszai, Secretary of the Academic Senate Steering Committee

Monthly Report of the Committee on Committees for February 2017

I. New Academic Senate Committee Members

Whenever vacancies on committees become available, the members of the Committee on Committees (CoC) vote via e-mail to appoint new members. Here are the changes that the CoC was made aware of, voted on, and approved.

A. Committee on Assessment and Institutional Effectiveness

Due to the resignation of Dr. Goldenberg from the Committee on Assessment and Institutional Effectiveness, and the inability of Mr. Jeffrey Chen to accept the appointment as a result of his title reclassification, Dr. Urszula Golebiewska from Biology was elected as the replacement. The term will run through spring 2018.

II. Senate Elections

Nomination petitions were sent to Faculty for seats on the Academic Senate. The nomination period, ran from Feb. 9th through Feb. 23rd. 17 Faculty responded for 14 positions. The candidates have been asked to provide personal statements, which Joel Kuszai will post on the website. Jeffrey Schwartz has prepared the online ballots, and the election will run from the morning of March 6 to 5 p.m. on March 20th. The list of candidates follows.

Nominees for Faculty Member-at-Large

Name	Department	Rank
Simran Kaur	Biology	Associate Professor
Joan Peterson	Biology	Associate Professor
Belle Birchfield	ET	Professor
Wilma Fletcher Anthony	Counseling	Associate Professor
Georgina Colalillo	Nursing	Professor
Barbara Blake Campbell	Nursing	Professor
Frank Jacob	History	Assistant Professor
Jeffrey Schwartz	ET	Assistant Professor
Larisa Honey	Social Sciences	Assistant Professor
Kelly Ford	Business	Associate Professor
Kenneth Pearl	History	Associate Professor
Julian Stark	Biology	Associate Professor
Janette Urciuoli	Counseling	Associate Professor
Andrea Salis	HPED	Assistant Professor
Anthony Kolios	Business	Associate Professor
Sebastian Murolo	Business	Assistant Professor
Steven Dahlke	Music	Assistant Professor

Faculty and HEOs received personalized emails inviting them to select which committees they would like to serve on. The selection period ran from Feb. 10 through Feb. 22nd.

The CoC will call a meeting to make committee assignments as soon as possible. Ballots will be made available two weeks prior to the April 2017 Senate meeting.

Respectfully submitted,

Christine Mooney

Christine Mooney, Esq.
Chairperson, Committee on Committees

February 2017 MONTHLY REPORT - COMMITTEE ON CURRICULUM

To: Peter Bales, Academic Senate Steering Committee
From: Lorena B. Ellis, Chairperson, Committee on Curriculum
Date: March 20, 2017
Subject: February Monthly Report for the March, 2017 Senate
CC: College Archives (CWilliams@qcc.cuny.edu)

The Committee on Curriculum has voted to send the following recommendations to the Academic Senate:

- 10-1 Course revisions (Item 1)
- 3 new courses (Item 2)
- 5-1 Program revisions (Item 3)

1. Course Revisions

DEPARTMENT OF ENGINEERING TECHNOLOGY

Departmental approval date January 26, 2017.

FROM:

ET110 Electric Circuit Analysis +
3 class hours, 3 laboratory hours, 4 credits
Co-requisite: MA-114

~~This course must be completed with a grade of C or better before the student will be permitted to register for more advanced courses in electrical or computer engineering technology.~~

Course description:

~~Resistance; Ohm's law; Kirchoff's laws, networks with DC current and voltage sources; branch current analysis; mesh and nodal analysis, superposition. Thevenin's, Norton's, maximum power theorems; capacitance; magnetic circuits; inductance; DC meters. Laboratory hours complement class work.~~

TO:

ET110 Electric Circuit Analysis
3 class hours, 3 laboratory hours, 4 credits
Co-requisite: MA-114

Note: ET-110 must be completed with a grade of C or better before the student will be permitted to register for more advanced courses in electrical or computer engineering technology.

Course description:

An introductory course to the fundamentals and basic principles of DC and AC circuits. Topics include: resistance, voltage, current, Ohm's Law, Kirchoff's laws, power, superposition, network theorems, Thevenin's and Norton's Theorems, maximum power transfer, introduction to AC, capacitors and inductors. Laboratory hours complement class work

Rationale:

Basic AC analysis is added to ET-110 and less time will be spent on theoretical concepts such as resistivity and less common network theorems. The department feels that providing a strong knowledge of computer programming with ET-575 is more important for CT majors than the additional AC Circuit Analysis topics covered in ET-140. Thus ET-

575 replaces ET-140 for CT majors and basic AC Analysis will be added to ET-110, Electric Circuit Analysis, to prepare students to take ET-210, Electronics I. The course ET-140, Transient and Sinusoidal Circuit Analysis, will be removed from the CT program requirements but will be available as an elective course to these students.

The course is renamed from “Electric Circuit Analysis I” to simply “Electric Circuit Analysis” because for many years there has been no Electric Circuit Analysis II in our curricula.

FROM:

ET210 Electronics I
3 class hours, 3 laboratory hours, 4 credits
Corequisite: ~~ET-140 or~~
Prerequisite: ~~ET-910 or ET-125~~

Course description:

Basic theory and operation of ~~solid state devices including diodes, BJTs, FETs, and MOSFETs, silicon controlled rectifiers, varactors and Zener diodes. Clipping and clamping circuits. Graphical and equivalent circuit analysis of active devices. DC biasing and AC analysis of transistor circuits. Rectifiers, filter and power supply circuit design.~~ Laboratory hours complement class work.

TO:

ET210 Electronics I
3 class hours, 3 laboratory hours, 4 credits
Pre-requisite: ET-110 with a grade of C or better
Co-requisite: none

Course description:

Basic theory and operation of semiconductor devices and linear integrated circuits including diodes, BJTs, JFETs, MOSFETs, Zener diodes, and operational amplifiers. DC power supply circuit analysis and design. Operational amplifier circuits include inverting and non-inverting amplifiers and applications. Laboratory hours complement class work.

Rationale:

Due to the ever-increasing complexity of electronic circuits, integrated circuits such as operational amplifiers have become fundamental to the field. Therefore ET-210 will be modified to include the topic of basic operational amplifiers and will spend less time on discrete components such as diodes and transistors. The pre-requisite is changed from ET-140 to ET-110 to support the CT and TC curricular revisions that eliminate ET-140. ET-910 and ET-125 are not currently offered.

FROM:

ET230 Telecommunications I
1 class hour, 2 recitation hours, 3 laboratory hours, 3 credits
Pre-requisite: ~~ET-220~~
Co-requisite: None

Course description:

Servomechanism components, operational amplifiers, Laplace transforms, block diagram algebra, transfer functions, steady state and transient analysis of second order systems, proportional control and tach feedback, frequency response analysis, Bode plots, stability gain margin and phase margin, compensation techniques, digital to analog conversion, robotic applications. Laboratory hours complement class work.

TO:

ET230 Telecommunications I
1 class hour, 2 recitation hours, 3 laboratory hours, 3 credits

Pre-requisite: none
Co-requisite: ET-560

Course description:

Topics will include: servomechanism components, operational amplifiers, Laplace transforms, block diagram algebra, transfer functions, steady state and transient analysis of second order systems, proportional control and tach feedback, frequency response analysis, Bode plots, stability gain margin and phase margin, compensation techniques, digital to analog conversion, robotic applications. Laboratory hours complement class work.

Rationale:

Control systems applications frequently employ microcontrollers, so the co-requisite of ET-560, Microprocessors, will better support ET-320. The course revision of ET-210, Electronics I, will provide an introduction to operational amplifiers that is adequate preparation for ET-320.

ET232:

Not be voted on in the March 14->21 senate: New information needs to be discussed and approved

FROM:

ET232 Wireless Mobile Communications

3 class hours 3 credits

Pre-requisite: ET 704 or Permission of the Department

Co-requisite: None

Course description:

This course covers the important aspects of mobile and wireless communications from the Internet to signals, access protocols and cellular systems, emphasizing the key area of digital data transfer.

TO:

ET232 Wireless Mobile Communications

3 class hours 3 credits

Pre-requisite: ET 704 or Permission of the Department

Co-requisite: None

Course description:

This course covers the important aspects of mobile and wireless communications from the Internet to signals, access protocols and cellular systems, emphasizing the key area of digital data transfer. Laboratory hours complement class work.

Rationale:

A laboratory component is needed because industry careers in wireless technology require these hands-on skills. Wireless networks are now essential infrastructure components. In learning the concepts of wireless networks via hands-on labs, students get the opportunity to understand the underlying technologies needed to prepare the engineers and technologists for the next generation. A laboratory component is also advisable for more effective learning. These hands-on projects provide problem-based learning.

FROM:

ET320 Electrical Control Systems

1 class hour, 2 recitation hours, 3 laboratory hours, 3 credits

Pre-requisite: ET-220

Co-requisite: None

Course description:

Servomechanism components, operational amplifiers, Laplace transforms, block diagram algebra, transfer functions, steady state and transient analysis of second order systems, proportional control and tach feedback, frequency response analysis, Bode plots, stability gain margin and phase margin, compensation techniques, digital to analog conversion, robotic applications. Laboratory hours complement class work.

TO:

ET320 Electrical Control Systems

1 class hour, 2 recitation hours, 3 laboratory hours, 3 credits

Pre-requisite: None

Co-requisite: ET-560

Course description:

Topics will include: servomechanism components, operational amplifiers, Laplace transforms, block diagram algebra, transfer functions, steady state and transient analysis of second order systems, proportional control and tach feedback, frequency response analysis, Bode plots, stability gain margin and phase margin, compensation techniques, digital to analog conversion, robotic applications. Laboratory hours complement class work.

Rationale:

Control systems applications frequently employ microcontrollers, so the co-requisite of ET-560, Microprocessors, will better support ET-320. The course revision of ET-210, Electronics I, will provide an introduction to operational amplifiers that is adequate preparation for ET-320.

FROM:

ET410 Electronic Project Laboratory

3 laboratory hours, 1 credit

Pre-requisite: ~~ET-504~~

Co-requisite: ~~ET-230~~

Course description:

A practical course exposing the student to the design, fabrication, assembly and trouble-shooting techniques associated with the manufacture and servicing of consumer electronic products. Working individually, students construct finished products employing Computer Aided Design software, the departmental printed circuit fabrication facility, small tools and test equipment.

TO:

ET410 Electronic Project Laboratory

3 laboratory hours, 1 credit

Pre-requisite: ET-560

Co-requisite: None

Course description:

A practical course exposing the student to the design, fabrication, assembly and trouble-shooting techniques associated with the manufacture and servicing of consumer electronic products. Working individually, students construct finished products employing Computer Aided Design software, the departmental printed circuit fabrication facility, small tools and test equipment

Rationale:

Microprocessors have become more prevalent in both the ET and TC fields and thus course projects have evolved to be more microprocessor based (ET-560). Therefore ET560 is proposed for the current prerequisite. ET-501 is being removed from the ET and CT curricula so it should no longer serve as a prerequisite course.

FROM:

ET502 Introduction to Computer Programming
3 laboratory hours, 1 credit
Pre-requisite: ~~ET-501~~
Co-requisite: None

Course description:

Introduction to the VISUAL Basic programming language with application problems in ~~electrical and Computer~~ Engineering Technology. Provides hands-on experience in the Department's computer ~~center~~.

TO:

ET502 Introduction to Computer Programming
3 laboratory hours, 1 credit
Pre-requisite: None
Co-requisite: None

Course description:

Introduction to the VISUAL Basic programming language with application problems in Engineering Technology. Provides hands-on experience in the Department's computer labs.

Rationale:

ET-501, Computer Applications, is being removed from the ET and CT curricula. Students in these curricula now have enough of a computer aptitude to succeed in an introductory programming class such as ET-502. The course description is updated for clarity and current terminology.

FROM:

ET509 ~~C++~~ Programming for Embedded Systems
3 laboratory hours, 1 credit
Prerequisite: ET-501
Co-requisite: None

Course description:

~~The nature of a program, simple C++ programs, variables, binary and hex number system, mathematical and logic operations with binary and hex numbers, looping and delays, arrays, pointers, microprocessor memory characteristics, data manipulation using pointers, input output programming exercises on a real microprocessor.~~

TO:

Programming for Embedded Systems
3 laboratory hours, 1 credit
Prerequisite: Either ET-501 or TECH-100
Co-requisite: None

Course description:

Introduction to embedded programming of single board microcontrollers and microprocessors, simple machine code, assembly and high-level language programs, binary and hex number systems, debug utility program, program variables, CPU addressing modes and flags, mathematical and logic operations with binary and hex numbers, looping and delays, microprocessor registers and memory characteristics. The course includes data input/output programming exercises on a microcontroller.

Rationale:

The course is and has been an embedded programming course, however due to the title and course description students are often confused that this is not a full-blown C++ course. Additionally the course may not always utilize C++, for instance this semester Arduino C is being utilized in some of the sections as opposed to C++. Thus the

references to C++ have been removed from the title and course description. The course content and objectives remains essentially unchanged.

FROM:

ET-542 Computer and Electrical Device Applications
3 laboratory hours, 1 credit
Pre-requisite: ~~ET-210 and ET-540 or ET-510~~
Co-requisite: None

Course description:

A practical course in the design and building of computer and electrical device applications. Topics include: Zener Diode Voltage regulators, Switching Applications, Darlington Configurations, Photo transistors, OP AMP Applications, Relays, and the use and design of Programmable Logic Devices into circuit applications.

TO:

ET-542 Computer and Electrical Device Applications
3 laboratory hours, 1 credit
Pre-requisite: ET-540
Co-requisite: None

Course description:

A practical course in the design and building of computer and electrical device applications. Topics include: Zener Diode Voltage regulators, Switching Applications, Darlington Configurations, Photo transistors, OP AMP Applications, Relays, and the use and design of Programmable Logic Devices into circuit applications.

Rationale:

ET-540, Digital Computer Theory, is appropriate preparation for this second course in digital electronics.

FROM:

CONTINGENT ON DEPARMENTAL APPROVAL: 3/8/2017

ET580 Object Oriented Programming
3 class hours 3 credits
Pre-requisite: ET-575
Co-requisite: None

Course description:

This course covers object-oriented programming principles and techniques using C++. Topics include pointers, ~~classes, overloading, data abstraction, information hiding, encapsulation, inheritance, polymorphism, file processing, templates, exceptions, container classes, and low-level language features.~~

TO:

ET580 Object Oriented Programming
3 class hours 3 credits
Pre-requisite: ET-575
Co-requisite: None

Course description:

This course covers object-oriented algorithmic problem solving using C++. Topics include pointers, pointer arithmetic; linked lists; memory management; recursion; operator overloading; inheritance and polymorphism; stream and file I/O; exception handling; templates and STL; applications of simple data structures and debugging techniques.

Rationale:

The course outline and description have been revised to more accurately reflect the contents of the course and correspond to comparable course at Queens College.

2. New Courses

DEPARTMENT SOCIAL SCIENCE NEW COURSE

Departmental approval date February 7, 2017

PHIL170 Asian Philosophies

3 class hours / 3 credits

Pre-requisites: BE-122 (or 226), or satisfactory score on the CUNY/ACT Assessment Test.

Course Description for college catalog:

An overview of the four most influential philosophical traditions of East Asia, namely Vedanta (Hinduism), Confucianism, Daoism, and Buddhism. More specifically, this course will focus on reading central texts in the Hindu, Confucian, Daoist, and Buddhist traditions to explore their philosophical architecture, or radically non-Western conceptions such as the Daoist understanding of emptiness, and the various implications of these insights for Western philosophy, culture, and everyday life.

Rationale:

At present, our philosophy courses only cover the traditions originating in one continent (Europe), roughly 25% of our students are of Asian descent, and campus integration and harmony would be fostered by the rest of the student body being at least minimally familiar with the most important ideas in Asian history.

DEPARTMENT HEALTH, PHYSICAL EDUCATION AND DANCE

Departmental approval date February 8, 2017

HE-202, Social and Behavioral Determinants of Health

3 class hours / 3 credits

Pre-requisites: HE114, Principles and Practices of Public Health

Course Description for college catalog:

This course introduces students to the various biological, psychological, socio-cultural, economic, environmental, institutional, organizational and political factors influencing health behavior and relevant disparities in health outcomes. Students are exposed to core theories and models used in the analysis of health behavior and outcomes from a systems perspective. Emphasis is placed on applying theories/models at various levels of influence to current health problems as a basis for intervention design.

Rationale:

This course is needed to satisfy a major requirement for students in the QCC-York A.S./B.S. Dual/Joint Public Health Degree Program. Offering this foundational public health course at QCC enables students to fulfill the pre-requisite for subsequent upper-level courses that they will take at York in their 3rd and 4th years in the program.

BIOLOGICAL SCIENCES AND GEOLOGY DEPARTMENT

Departmental approval date 02/08/16

BI-522, Applied Biostatistics

3 class hours, 3 credits

Pre-requisites: MA 336, Statistics; HE 114: Principles and Practices of Public Health; BI 503: Epidemiology

Course Description for college catalog:

This survey course is designed to provide students with basic knowledge and skills to conduct statistical techniques applied to tests and measurements in public health. It will concentrate on the interpretation and comprehension of graphical and statistical techniques that are important components of research and public health practice. Students

will be exposed to topics such as vital statistics, and the evaluation of tools to measure health attitudes, knowledge, and behavior. In addition, students will learn to use computer software for statistical analysis.

Rationale:

The course will satisfy the major's requirement in the proposed Dual-Joint B.S. Public Health Program with York College (proposal in progress). This course is designed to provide students with basic knowledge and skills to conduct statistical techniques applied to tests and measurements in public health.

3. Program Revision – York College needs more time

DEPARTMENT OF BIOLOGICAL SCIENCES AND GEOLOGY
DEPARTMENT HEALTH, PHYSICAL EDUCATION AND DANCE

Changes in Dual Joint A.S./B.S. Public Health Program of QCC York: the revisions are requested jointly by Department of Biological Sciences and Geology and Health, Physical Education and Dance Department

Change or Adapt a Registered Program

Use the [Request to Change or Adapt a Registered Program](#) form to request program changes that require approval by the State Education Department (see chart).⁵ For programs that are registered jointly with another institution, all participating institutions must confirm support for the changes.

Exceptions:

- To change a registered professional licensure program or add a license qualification to an existing program, contact the [Office of the Professions](#) for guidance.
- To change a registered teacher certification or educational leadership certification program or add a certificate qualification to an existing program, use the education program change form.

Changes and Adaptations Requiring State Education Department Approval

* CUNY and SUNY institutions: contact System Administration for guidance.

Changes and Adaptations Requiring State Education Department Approval

Changes in Program Content (all programs)

1.—Any of the following substantive changes:

- Cumulative change from the Department's last approval of the registered program of one-third or more of the minimum credits required for the award (e.g., 20 credits in an associate degree program)
- Changes in the program's focus or design (e.g., eliminating management courses in a business administration program), including a change in the program's major disciplinary area
- Adding or eliminating an option or concentration
- Eliminating a requirement for completion, including an internship, clinical, cooperative education, or other work-based experience
- Altering the liberal arts and science content in a way that changes the degree classification, as defined in Section 3.47(c)(1-4) of [Regents Rules](#)

Other Changes (all programs)

- 2.—Program title
- 3.—Program award (e.g., change in degree)
- 4.—Mode of delivery (**Note:** if the change involves adding a **distance education format** to a registered program, please complete the [distance education application](#).)
- 5.—Discontinuing a program
- 6.—A format change that alters the program's financial aid eligibility (e.g., from full time to part time, or to an abbreviated or accelerated semester)
- 7.—A change in the total number of credits of any certificate or advanced certificate program

Establishing New Programs Based on Existing Registered Programs

- 8.—Creating a dual-degree program from existing registered programs
- 9.—Creating a new program from a concentration/track in an existing registered program

PLEASE NOTE:

Establishing an existing program at a new location requires new registration of the program. If the requested action changes the program's major disciplinary area, master plan amendment may be needed if the revised program represents the institution's first program in that major subject area, at that degree level. If a requested **degree title** is not authorized for an institution chartered by the Board of Regents, charter amendment will be needed.

NEW YORK STATE EDUCATION DEPARTMENT

CEO (or designee) approval	<p>Name and title: Diane B. Call, President of Queensborough Community College/City University of New York</p> <p>Signature and date:</p>

<i>Signature affirms the institution's commitment to support the program as revised.</i>	If the program will be registered jointly ² with another institution, provide the following information:
	Partner institution's name: YORK College, City University of New York
	Name and title of partner institution's CEO: Dr. Marcia V. Keizs, President of York College/City University of New York
	Signature of partner institution's CEO:

- For programs that are registered jointly with another institution, all participating institutions must confirm their support of the changes.
- To change a registered professional licensure program or add a license qualification to an existing program, contact the [Office of the Professions](#) for guidance.
- To change a registered teacher certification or educational leadership certification program or add a certificate qualification to an existing program, use the education program change form.
- If the change involves **establishing an existing registered program at a new location**, complete a new registration application for the proposed program.

Check all changes that apply and provide the requested information.

Changes in Program Content *(Describe and explain all proposed changes; provide a side-by-side comparison of the existing and newly modified programs.)*

² If the partner institution is non-degree-granting, see CEO Memo 94-04 at www.highered.nysed.gov/ocue/ceo94-04.htm.

Cumulative change from the Department's last approval of the registered program that impacts one-third or more of the minimum credits required for the award (e.g., 20 credits in an associate degree program)

Changes in a program's focus or design

Adding or eliminating an option or concentration

Eliminating a requirement for program completion

Altering the liberal arts and science content in a way that changes the degree classification, as defined in Section 3.47(c)(1-4) of [Regents Rules](#)

If new courses are being added as part of the noted change(s), provide a syllabus for each new course and list the name, qualifications, and relevant experience of faculty teaching the course(s). Syllabi should include a course description and identify course credit, objectives, topics, student outcomes, texts/resources, and the basis for determining grades.

Other Changes *(describe and explain all proposed changes)*

Program title

Program award

Mode of Delivery (**Note:** if the change involves adding a **distance education format** to a registered program, please complete the [distance education application](#).)

Discontinuing a program: indicate the date by which the program will be discontinued.³

Format change (e.g., from full time to part time, or to an abbreviated or accelerated semester)

a) Indicate proposed format:

b) Describe availability of courses and any change in faculty, resources, or support services:

c) Use the Sample Program Schedule to show the sequencing and scheduling of courses in the program.

³ If any students do not complete the program by the proposed termination date, the institution must request an extension of the registration period for the program or make other arrangements for those students.

Establishing New Programs Based on Existing Registered Programs

~~[X]~~ ~~Creating a dual-degree program from existing registered programs~~

a) Complete the following table to identify the existing programs:

	Program Title	Degree Award	Program Code
Program 1	Public Health	A.S.	20509
Program 2	Public Health	B.S.	37703

b) Proposed dual-degree program (title and award):⁴ **A.S./B.S. Public Health**

Students seeking admission to the A.S./B.S. QCC/York Dual/Joint Degree program in Public Health must first satisfy the general requirements for entry to Queensborough: completion of either a high school diploma or a New York State Equivalency Diploma. Upon acceptance to Queensborough, students must take the CUNY Placement Exams, which measure proficiency in reading, writing, and mathematics. Students may apply to the A.S./B.S. Dual/Joint degree program after they have completed their first semester at Queensborough and earned a C or better in ENGL 101, MA 119 and BI 201 and a minimum GPA of 3.0. The criteria for retention and continuation for students enrolled in the program are to maintain a GPA of 3.0 in all required program courses (including program electives) and maintain a minimum GPA of 3.0 for the first 60 credits of the program. At Queensborough, students will also complete two writing intensive (WI) courses during their first 60 credits. The retention and completion criteria for the program are to maintain a minimum GPA of 3.0 in required program courses (including program electives) and a minimum cumulative GPA of 3.0.

⁴ Only candidates with the capacity to complete the requirements of both degrees shall be admitted to a dual-degree program.

c) Courses that will be counted toward both awards:

Queensborough Community College Courses	
Course & Title	Credits
Required Core 1A EN 101 English Composition I	3
EN 120 English Composition II	3

[] **Creating a new program from a concentration/track in an existing program.**

If the new program is based **entirely** on existing courses in a registered program, provide the current program name, program code, and the following information:

Note: this abbreviated option applies only if a master plan amendment is NOT required **and** there are no new courses or changes to program admissions and evaluation elements. If these conditions are not met, submit a new registration application for the proposed program.

- a) Brief description of the proposed program and rationale for converting the existing coursework to a separately registered program:
- b) Expected impact on existing program:
- c) Adjustments the institution will make to its current resource allocations to support the program:
- d) Statement confirming that the admission standards and process and evaluation methods are the same as those in the existing registered program:
- e) Information from the Application for Registration of a New Program form: cover page (page 1), Sample Program Schedule form, and faculty information charts (full-time faculty, part-time faculty, and faculty to be hired)

Note: if the change involves **establishing an existing registered program at a new location**, complete a new registration application for the proposed program.

10. Write a Rationale for all the changes

Write a Summary for all the changes

The revision of HE 114 Foundations of Health Promotion and Disease Prevention to HE 114 Principles and Practices of Public Health to be equivalent to York College's PH 201 History and Principles of Public Health.

The addition of two 3-credit major elective courses as options in the A.S. Public Health Degree Program:

BI 522 Applied Biostatistics

HE 202 Social and Behavioral Determinants of Health

The inclusion of these courses in both the A.S. Public Health and the A.S./B.S. Public Health degree programs.

The current articulation agreement with Hunter College to be revised to reflect the inclusion of the course revision and the new courses. Additionally, the courses are to be transferable to other CUNY colleges including, Brooklyn College and Lehman College.

PHIL –148 Public Health Ethics recommended for Pathways Flexible Core 2D.

11. If the program revision includes course revisions or new courses, submit the appropriate

Course Revision form and/or New Course Proposal Form, along with the Syllabus and Course Objectives form.

Please see attached.

12. **If courses will be deleted from the program, make clear whether the courses are to be deleted from the department's offerings as well.**

No

13. **Explain briefly how students currently in the program will be able to complete the requirements**

Since the A.S. Public Health Program was launched in Fall 2016, currently enrolled QCC students are in their first semester of the program and will only be able to take the new courses once they have completed the required pre-requisites for BI 522 and HE 202 and are in their final semester at QCC.

see attachment: Undergraduate_SchedulePH_York_REV 02082007

COMMON CORE	COMMON CORE UNCHANGED

			30-34 ⁵
REQUIREMENTS FOR THE MAJOR			
Two Foreign Language courses (two sequential courses are required, level and sequence to be determined by Foreign Language Department placement)	8		0
HI-110 or HI-111 or HI-112 (if already taken in common core, one course from HI-100 series is recommended; if two History courses have been taken in common core, one additional course from PSYC-125, SOCY-290 or ANTH-160 is recommended)	3		0
SP-211 (if already taken in common core, one course from HI-100 series is recommended; if two History courses have been taken in common core, one additional course from PSYC-125, SOCY-290 or ANTH-160 is recommended)	3		0
One English course from ENGL-200 series	3		0
One science lab. course (STEM variant in common core satisfies this requirement): Applicable courses include BI-132, BI-171; CH-102, CH-111, CH-121; ET-842; PH-112	4		0
Sub-total:	14- 18		0
ADDITIONAL MAJOR REQUIREMENTS		ADDITIONAL MAJOR REQUIREMENTS UNCHANGED	3-4
ELECTIVES OR CONCENTRATION CHOICES			
Health and Behavior Concentration (8-9 credits): Take HE-107 Mental Health: Understanding Your Behavior and choose from HE-104 Addictions and Dependencies, HE-105 Human Sexuality, HE-111 Stress Management, IS-151 Health of the Nations			
Sub-total:	8-9		0
EXISTING CONCENTRATIONS		EXISTING CONCENTRATIONS UNCHANGED	22-27
Total credits:			60

⁵ The credit range accounts for those who opt to take STEM Variants in 1B, 1C, 2E, and the additional course in the flexible core.

10. Write a Rationale for all the changes

The Health and Behavior Concentration in the Liberal Arts and Sciences A.A. Degree Program has had consistent low enrollment (there are currently 7 students enrolled). While this proposal is to eliminate the concentration, students can remain in the Liberal Arts degree program and take the courses from the Health and Behavior Concentration as free electives in the Liberal Studies Concentration or they may choose another concentration. Students interested in studying Public Health at Queensborough are recommended to enroll in the A.S. Public Health.

Summary for all the changes:

Deletion of the Health and Behavior Concentration as one of 15 concentrations in the Liberal Arts and Sciences A.A. Degree Program.

11. If the program revision includes course revisions or new courses, submit the appropriate Course Revision form and/or New Course Proposal Form, along with the Syllabus and Course Objectives form.

Not applicable.

12. If courses will be deleted from the program, make clear whether the courses are to be deleted from the department's offerings as well.

The courses from the program will not be deleted from the departments' offerings. Students may take these courses to fulfill other degree requirements.

13. Explain briefly how students currently in the program will be able to complete the requirements

Students currently in the Health and Behavior concentration may complete the program in spring 2017 or choose to use the credits earned and apply them towards the Liberal Studies concentration or other LA concentration. They may also choose to enroll in the A.S. Public Health degree program. Students currently enrolled in the program will be advised of their options to make the best choice for their degree attainment and career goals.

9. Write a Rationale for all the changes

Overview

The proposed Computer Engineering Technology (CT) curriculum represents a balanced curriculum of computer hardware, software, system design, liberal arts and science, and communications, to prepare students for the current and future computer engineering technology needs of industry. Furthermore it will provide Computer Engineering Technology students with the prerequisites to continue on for a four-year degree and introduces additional opportunity for students to engage in a credit bearing coop education experience.

This proposal maintains the CUNY 64-credit constraint and is in full compliance with the new ETAC/ABET guidelines. This revision fixes discrepancies that have been around for many years; provides common courses for the freshman semester to make advisement easier; allow students in remedial math more options to progress in the degrees; creates an elective in the TC program where there was none before. Existing courses are repositioned in the curriculum and no new courses are created. Curricular flow is modified through pre and co-requisite adjustments and in some cases course outlines are revised. The proposal is the outcome of many hours of discussion among the faculty and staff and will benefit our Computer Engineering Technology students without compromising

academic standards. We would be happy answer any questions that the College Curriculum Committee may have or come to one of your meeting to further discuss this proposal.

Please find below the individual proposed changes with their respective rationale.

Curricular Change 1 - TECH-100, Introduction to Engineering and Technology, 3 Laboratory Hours/1 Credit, will replace ET-501, Computer Applications, 3 Laboratory Hours/1 Credit. TECH-100 then becomes a prerequisite for ET-509.

Rationale 1 - Students often come to Engineering Technology without a clear sense of the disciplines it encompasses and what they entail. Before a long-term commitment is made to study in Computer, Electronic or Mechanical Engineering Technology, it is wise to give an overview of the profession and other related disciplines. For those students who continue on in the major, this overview will give them a firm foundation in technical skills on which to build future studies. TECH-100 was created for the Mechanical Engineering Technology Curriculum and has been found to be very successful and useful to students. Our goal is to have all technology students take this course. Furthermore, we feel that ET-501 Computer Applications is less critical to technology students because many of the computer applications are addressed in other courses.

ET-575, Introduction to C++ Programming Design and Implementation, 2 Lecture Hours, 2 Lab Hours/3 Credits, will replace ET-140, Transient and Sinusoidal Circuit Analysis, 2 Lecture Hours, 1 Recitation Hour, 3 Laboratory Hours/3 Credits. ET-110, Electric Circuit Analysis I, will be revised with some introductory topics from ET-140. ET-575 is designed to be a fully compatible course with other degree programs at four-year colleges. ET-505 and ET-507 overlap with ET-575, so they are to be deleted as electives.

Rationale 2 - It has become more and more important for computer engineering technology students to develop strong computer programming skills. Transferability and the competition offered by the growth of coding boot camps are two reasons why our students need a comprehensive programming course. The current curriculum has two, one credit programming courses: ET-502 focuses on Visual Basic Programming and ET-509 focuses on Embedded Processing and serve to prepare students for subsequent courses in the curriculum. While both courses do transfer to New York City College of Technology and SUNY Farmingdale, they transfer as elective credit. Faculty members at SUNY Farmingdale have specifically mentioned the need for our students to complete an in depth programming class in C++ to fully prepare them for the Farmingdale technology curricula. ET faculty believe that the requirement of a traditional and complete computer programming course will improve articulation and better serve computer engineering technology students to compete in the workplace.

ET-575 is designed to be a fully compatible course with other degree programs. ET-505 and the follow-on course ET-507 are be deleted as electives in CT because they overlap in content with ET-575 which is now required in the CT curriculum.

To make room in the curriculum for ET-575, ET-140, Transient and Sinusoidal Circuit Analysis, will be

removed as a CT program requirement. It will remain part of the ET curriculum and will be available as an elective course to CT students. A strong knowledge of computer programming has become more important for CT majors than the additional AC Circuit Analysis topics covered in ET-140. Some AC Analysis will be added to ET-110, Electric Circuit Analysis I, to prepare students to take ET-210, Electronics I.

Curricular Change 2 - ET-210 course revision to emphasize integrated circuits.

Rationale 3 - Due to the ever-increasing complexity of electronic circuits, integrated circuits such as operational amplifiers have become essential to the field. Therefore ET-210 will be modified to include the topic of basic operational amplifiers and will spend less time on discrete components such as diodes and transistors.

10. Write a Summary for all the changes

- 1) TECH-100, Introduction to Engineering and Technology, 3 Laboratory Hours/1 Credit, will replace ET-501, Computer Applications, 3 Laboratory Hours/1 Credit, for degree credit and as a prerequisite.
- 2) ET-509, C++ Programming for Embedded Systems is renamed to "Programming for Embedded Systems", and TECH-100 becomes a prerequisite for ET-509.
- 3) ET-575, Introduction to C++ Programming Design and Implementation, 2 Lecture Hours, 2 Laboratory Hours/ 3 Credits, will replace ET-140, Transient and Sinusoidal Circuit Analysis, 2 Lecture Hours, 1 Recitation Hour, 3 Laboratory Hours/3 Credits.
- 4) ET-110, Electric Circuit Analysis I, will be modified to include additional AC topics to prepare students for ET-210 in lieu of ET-140.
- 5) ET-210, Electronics I, will be modified to include more currently relevant topics and the prerequisite changes from ET-140 to ET-110.

11. If the program revision includes course revisions or new courses, submit the appropriate Course Revision form and/or New Course Proposal Form, along with the Syllabus and Course Objectives form.

The course revision forms are attached for the following actions:
ET-110 and ET-210 outlines are revised.
ET-210 and ET-509 prerequisites are modified.

12. If courses will be deleted from the program, make clear whether the courses are to be deleted from the department's offerings as well.

- 1) ET-140 will be deleted from the CT program, but it will remain in the ET program and be offered as an elective in CT and TC.
- 2) The department will continue to offer ET-501 in support of other degrees as well as students who choose to be grandfathered into the previous curriculum.

13. Explain briefly how students currently in the program will be able to complete the requirements

See above.

9. Write a Rationale for all the changes

Overview

The proposed Computer Engineering Technology (CT) curriculum represents a balanced curriculum of computer hardware, software, system design, liberal arts and science, and communications, to prepare students for the current and future computer engineering technology needs of industry. Furthermore it will provide Computer Engineering Technology students with the prerequisites to continue on for a four-year degree and introduces additional opportunity for students to engage in a credit bearing coop education experience.

This proposal maintains the CUNY 64-credit constraint and is in full compliance with the new ETAC/ABET guidelines. This revision fixes discrepancies that have been around for many years; provides common courses for the freshman semester to make advisement easier; allows students in remedial math more options to progress in the degree. Existing courses are repositioned in the curriculum and no new courses are proposed. Curricular flow is modified through pre and co-requisite adjustments and in some cases course outlines are revised. Requested revisions for ET-110 and ET-210 are primarily aimed at the CT and TC programs. The topics of AC circuits and operational amplifiers will continue to be addressed at greater length in ET-140 and ET-220, respectively. The proposal is the outcome of many hours of discussion among the faculty and staff and will benefit our Computer Engineering Technology students without compromising academic standards. We would be happy answer any questions that the College Curriculum Committee may have or come to one of your meeting to further discuss this proposal.

Please find below the individual proposed changes with their respective rationale.

Curricular Change 3 - TECH-100, Introduction to Engineering and Technology, 3 Laboratory Hours/1 Credit, will replace ET-501, Computer Applications, 3 Laboratory Hours/1 Credit. TECH-100 then becomes a prerequisite for ET-509.

Rationale 1 - Students often come to Engineering Technology without a clear sense of the disciplines it encompasses and what they entail. Before a long-term commitment is made to study in Computer, Electronic or Mechanical Engineering Technology, it is wise to give an overview of the profession and other related disciplines. For those students who continue on in the major, this overview will give them a firm foundation in technical skills on which to build future studies. TECH-100 was created for the Mechanical Engineering Technology Curriculum and has been found to be very successful and useful to students. Our goal is to have all technology students take this course. Furthermore, we feel that ET-501 Computer Applications is less critical to technology students because many of the computer applications are addressed in other courses.

Curricular Change 4 - ET-540, Digital Fundamentals, 3 Lecture Hours, 3 Laboratory Hours/4 Credits will replace ET-510, Introduction to Digital Electronics, 3 Lecture Hours, 3 Laboratory Hours/4 Credits

Rationale 2 - As the growth and importance of microprocessors has grown it became paramount that all ET, CT, and TT students take a comprehensive course in microprocessors. A curriculum revision a number of years ago required all students to take ET-560, Microprocessors and Microcomputers. At that time ET students and CT students each required a different treatment of the prerequisite for ET-560. Therefore ET students took ET-510, Introduction to Digital Electronics, while CT and TT students took ET-540, Digital Fundamentals. Over the years the differences have diminished or completely gone away. Thus today these courses have become very similar. By having all students take the same course all students will have greater scheduling choices. Furthermore, ET-540 articulates to technology programs at New York City College of Technology and SUNY Farmingdale technology programs as well as CCNY Engineering Programs.

Curricular Change 5 - ET-110, Electric Circuit Analysis I, will be revised to include some introductory AC topics from ET-140. The topics of AC circuits and operational amplifiers will continue to be addressed at greater length in ET-140 and ET-220, respectively.

Rationale 3 - Due to the curricular changes for the CT program, some AC Analysis will be added to ET-110, Electric Circuit Analysis I, to prepare students to take ET-210, Electronics I.

Curricular Change 6 - ET-210 course revision to emphasize integrated circuits.

Rationale 4 - Due to the ever-increasing complexity of electronic circuits, integrated circuits such as operational amplifiers have become essential to the field. Therefore ET-210 will be modified to include the topic of basic operational amplifiers and will spend less time on discrete components such as diodes and transistors.

Curricular Change 7 - ET-230, Telecommunications I, prerequisite is changed from ET-220, Electronics II, to ET-210, Electronics I.

Rationale 5 - AC topics and operational amplifiers are moved earlier into the curriculum, thus ET-210 is now an appropriate prerequisite for ET-230.

10. Write a Summary for all the changes

- 6) TECH-100, Introduction to Engineering and Technology, 3 Laboratory Hours/1 Credit, will replace ET-501, Computer Applications, 3 Laboratory Hours/1 Credit.
- 7) ET-509, C++ Programming for Embedded Systems is renamed to Programming for Embedded Systems, and TECH-100 becomes a prerequisite for ET-509.
- 8) ET-540, Digital Fundamentals, 3 Lecture Hours, 3 Laboratory Hours/4 Credits replaces ET-510, Introduction to Digital Electronics, 3 Lecture Hours, 3 Laboratory Hours/4 Credits
- 9) ET-230, Telecommunications I, ET-210 replaces ET-220 as the prerequisite course.

11. If the program revision includes course revisions or new courses, submit the appropriate Course Revision form and/or New Course Proposal Form, along with the Syllabus and Course Objectives form.

The course revision forms are attached for the following actions:
ET-110 and ET-210 outlines are revised.
ET-210, ET230 and ET-509 prerequisites are modified.

12. If courses will be deleted from the program, make clear whether the courses are to be deleted from the department's offerings as well.

- 1) The department will continue to offer ET-501 in support of other degrees as well as students who choose to be grandfathered into the previous curriculum.
- 2) ET-510 will be deleted from the department's offerings.

13. Explain briefly how students currently in the program will be able to complete the requirements

Students requiring ET-510 will be able to take ET-540 as a substitution.

TC Program Revision

Here is the information to include in a proposal to revise an existing degree or certificate program:

1. Dept. Name:	Engineering Technology
2. Program Name:	A.A.S., Telecommunications Technology
3. Program Code:	21057
4. HEGIS number:	5310
5. Date approved by the	01 26 2017

department

9. Write a Rationale for all the changes

Overview

The proposed changes to the TC curriculum reduce the number of required credits from 65 to 64 and bring the program into alignment with other A.A.S. curricula. There are no changes to the general education and liberal arts and sciences course requirements. Furthermore it will provide students with the prerequisites to continue on for a four-year degree and provides a new opportunity for students to engage in elective credits for the degree including a credit bearing coop education experience.

The Engineering Technology Department strives to keep all its curriculums up to date in order to provide our students with the best preparation for current jobs and for successful transfer to quality baccalaureate programs upon graduation. This revision proposal is fully compliant with the Engineering Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (ETAC of ABET) criteria. Existing courses are repositioned in the curriculum and no new courses are proposed. Curricular flow is modified through pre and co-requisite adjustments and in some cases course outlines are revised.

Please find below the individual proposed changes with their respective rationale.

Curricular Change 8 - TECH-100, Introduction to Engineering and Technology, 3 Laboratory Hours/1 Credit, will replace ET-501, Computer Applications, 3 Laboratory Hours/1 Credit. TECH-100 then becomes a prerequisite for ET-509.

Rationale 1 - Students often come to Engineering Technology without a clear sense of the disciplines it encompasses and what they entail. Before a long-term commitment is made to study in Computer, Electronic or Mechanical Engineering Technology, it is wise to give an overview of the profession and other related disciplines. For those students who continue on

in the major, this overview will give them a firm foundation in technical skills on which to build future studies. TECH-100 was created for the Mechanical Engineering Technology Curriculum and has been found to be very successful and useful to students. Our goal is to have all technology students take this course. Furthermore, we feel that ET-501 Computer Applications is less critical to technology students because many of the computer applications are addressed in other courses.

Curricular Change 9 - ET-232, Wireless Mobile Communication, 3 Lecture Hours/3 Credits, will replace ET-140, Transient and Sinusoidal Circuit Analysis, 2 Lecture Hours, 1 Recitation Hour, 3 Laboratory Hours/3 Credits. ET-110 will replace ET-140 as the pre-requisite for ET-210.

Rationale 2 - One of the key characteristics of today's society is that people are mobile. The devices and applications that we use today already show the great importance of mobile communications. We cannot make a precise prediction, but as a general feature, most computers in the future will certainly be portable. Users, access networks with the help of computers or other communication devices without any wires, i.e., wirelessly. The term "wireless" only describes the way of accessing a network or other communication partners. The wire is replaced by the transmission of electromagnetic waves through 'the air' (although wireless transmission does not need any medium).

This course will offer students practical insight into wireless network and medium issues and will empower students to deal with the growing need of most current technologies: mobile and wireless devices and the networks supporting them. Wireless communication is one of today's most promising technological advances and is a necessary course in order to keep the telecommunications curriculum current and up-to-date.

Students will now progress directly from ET-110, Electric Circuit Analysis, to ET-210, Electronics I. ET-110 will be modified include an introduction to AC circuits to support this transition. This structure is compatible with the Telecommunications program at Farmingdale. ET-110 will be renamed to clarify that there is no follow-on electric circuit analysis course.

Curricular Change 10 - ET-Electives/3 Credits will replace ET-231, Telecommunications II, 3 Lecture Hours, 3 Laboratory Hours/4 Credits

Rationale 3 - Few professions have grown as rapidly as Telecommunications Technology. Technological growth has led to almost daily change. The continued growth makes the flexibility of elective courses extremely important. Current topics in telecommunications like cyber security, mobile technology, the internet, computer maintenance, operating systems, and computer programming can be made available to meet student interest and industry requirements. The implementation of elective

courses will help to keep the curriculum up to date with the latest changes in the telecommunications industry. It will also give students choices to pursue their personal interests and obtain the academic and technical training needed to compete for a career in this field.

Telecommunications Technology students need to be exposed to many areas of telecommunications in order to keep in sync with this fast changing global marketplace. ET-231, Telecommunications II, will be removed as a program requirement but will remain as an elective for Telecommunications Technology students.

Curricular Change 11 - ET-509, 3 Laboratory Hours /1 Credit will replace ET-502, 3 Laboratory Hours /1Credit

Rationale 4 - This revision allows students to take all required prerequisites within the TC degree for ET-560. Both courses are introductory programming classes for the same amount of credit and hours. However, ET-509 introduces Assembly Language that is a prerequisite for ET-560.

Curricular Change 12 - Pre-requisites for ET-230, Telecommunications I, 3 Lecture Hours, 3 Laboratory Hours /4 credits will be changed from ET-220, Electronics II, to ET-210, Electronics I.

Rationale 5 - The current prerequisite, ET-220, has not been in the TC curriculum for many years. The revision of ET-210 to include operational amplifiers will appropriately support students to take ET-230.

10. Write a Summary for all the changes

- 1) TECH-100, Introduction to Engineering and Technology, 3 Laboratory Hours/1 Credit, will replace ET-501, Computer Applications, 3 Laboratory Hours/1 Credit.
- 2) ET-232, Wireless Mobile Communication, 3 Lecture Hours/3 Credits, will replace ET-140, Transient and Sinusoidal Circuit Analysis, 2 Lecture Hours, 1 Recitation Hour, 3 Laboratory Hours/3 Credits
- 3) ET-110, Electric Circuit Analysis, will be modified to include an introduction to AC analysis. ET-110 will be renamed from "Electric Circuit Analysis I" to simply "Electric Circuit Analysis".
- 4) ET-Electives/3 Credits will replace ET-231, Telecommunications II, 3 Lecture Hours, 3 Laboratory Hours/4 Credits
- 5) ET-509, Programming for Embedded Systems, 3 Laboratory Hours /1 Credit will replace ET-502, Introduction to Computer Programming, 3 Laboratory Hours /1 Credit

- 6) Pre-requisites for ET-230, Telecommunications I, 3 Lecture Hours, 3 Laboratory Hours /4 credits will be changed from ET-220, Electronics II, to ET-210, Electronics I.

11. **If the program revision includes course revisions or new courses, submit the appropriate Course Revision form and/or New Course Proposal Form, along with the Syllabus and Course Objectives form.**

The course revision forms are attached for the following actions:
ET-110 and ET-210 outlines are revised.
ET-210, ET-230 and ET-509 prerequisites are modified.

12. **If courses will be deleted from the program, make clear whether the courses are to be deleted from the department's offerings as well.**

- 3) The department will continue to offer ET-501 in support of other degrees as well as students who choose to be grandfathered into the previous curriculum.
- 4) ET-140 will continue to be required for the ET degree. It will be offered as an elective for the CT and TC degrees.
- 5) ET-231 will be offered as an elective.
- 6) ET-502 will continue to be required in the CT degree and offered as an elective for the CT and TC degrees.

13. **Explain briefly how students currently in the program will be able to complete the requirements**

Students requiring ET-510 will be allowed to take ET-540 as a substitution.

Computer Engineering Technology A.A.S. (CT2) proposed v5

Revision date: 1/25/2017

¹ Taking both MA-119 & MA-121s equivalent to MA-114

² Must take MA-114 or equivalent before MA-440

³ Must take MA-440 before MA-441

⁴ Requires passing BE reading only. Elective chosen from FLEX. IIA, B, D or E (ONLY HI 100 series, ANTH, CRIM101 OR 102, ECON, PLSG, PSYCH, OR SOCY)

Birchfield

**Queensborough Community College, CUNY
Academic Senate**

To: Joel Kuszai, Secretary, Steering Committee of the Academic Senate

Fr: Emily S. Tai, Chair, Subcommittee on Food Insecurity

Date: March 1, 2017

Subject: Report of the Committee on Food Insecurity

As of this writing, the Resolution to create a standing Committee of the Academic Senate on Food Insecurity is still under consideration by members of the Committee on Bylaws. However, the Committee is scheduled to meet to discuss various matters of importance on Wednesday, March 15, 2017, between noon and 1 P.M. in Science 223. Among the subjects to be discussed will be a generous proposal from the Faculty Executive Committee, to partner with the Committee on Food Insecurity as the site for financial donations to defray the cost of stocking the pantry.

We welcome the attendance of all faculty who may be interested in this project, including faculty who might be considering involvement in the coming fall, 2017 semester.

We remind following schedule is being established for the Lucille A Bova Food Pantry for Spring, 2017:

Mondays:

Dr. Amy Traver, 2-3 PM

Professor Elizabeth Di Giorgio 5-6 P.M.

Tuesdays

Dr. Sharon Ellerton, 1:30-2:30 P.M.

Dr. Leah Anderst 4-5 PM

Wednesdays

Dr. Emily Tai available by appointment, etai@qcc.cuny.edu, between 2PM-5 PM, and 9 PM-11 PM

Thursdays

Professor John Gilleaudeau, 2-4 P.M.

Professor Peter Bales, 4-5 PM

Fridays

Dr. Susan Jacobowitz, 2-3 PM

Dr. Annisa Moody, 3-4 PM

All student requests may also be sent to the new food pantry email address:

LucilleABovaFoodPanty@qcc.cuny.edu or to etai@qcc.cuny.edu

The Pantry is stocked with non-perishable foodstuffs, particularly canned vegetables, fruits, soups, and protein items (beans; tuna, chicken, ravioli), etc., with pop-open cans preferred; pasta and sauce; breakfast cereal; non-perishable soy and almond milk; healthy snacks (sunflower butter; peanut butter; seaweed, granola bars, applesauce); and personal hygiene items (toothpaste, soap, etc.). Our expanded hours during the Spring semester have allowed us to serve more students; as of this writing, we have been seeing approximately 15-20 students per well. Staff at the Single Stop Office, who refer many of these students, have indicated that the pantry is particularly helpful to students who need benefits, but fall slightly over the threshold of eligibility. Hardships discussed have included job loss; housing insecurity and homelessness; hardships related to undocumented status; injured/disabled/ unemployed parents; lack of expected funding, and malnutrition. Some students are taking things for themselves; others are trying to feed entire families. Additional items we have tried to stock include diapers, baby food, and baby formula.

The Subcommittee's Service-Learning Faculty Partners for the Spring, 2017 semester, are:

Dr. Lana Zinger (Health, Physical Education, and Dance)

Dr. Christine Mooney (Business)

Dr. Sharon Ellerton (Biology)

Professor Elizabeth Di Giorgio (Art and Design)

Professor Emily Tai (History)

As of this writing, "drop off points" for the Food Drive remain at:

Schmeller Library Entrance (second floor);

Medical Arts 02 (the Health Office)

Medical Arts 213 (the Biology Department)

Medical Arts 326

Medical Arts 413

Science 448A

W-110 (the ASAP Building)

C Building, adjacent to Room 105 (the Office of the Department of Art and Design)

We would like to take this opportunity to extend special thanks to the many anonymous and named donors (listed below) who assisted in co-sponsored activities and/or gave generously to the Pantry during our “Share the Love Food Drive” this February:

President Diane Call

Vice-President Stephen Di Dio, Mr. David Moretti, and members of the Office of Marketing and Communications (who were extremely helpful in promoting our Share the Love Food Drive with electronic flyers and signage);

Vice-President Michel Hodge

Mr. Renald Pierre-Charles

Dr. Lana Zinger, Dr. Andrea Salis, Dr. Young Kim, and members of the Department of Health, Physical Education and Dance

Dr. Susan Jacobowitz and faculty of the Department of English

Dr. Jiliani Warsi

Dr. Margot Edlin

Director Jeanne Galvin and the Faculty of Schmeller Library

Dr. Trikartikaningsih Byas and the Muslim Student Association

Professor Marlon Moreno and the Affiliates of the American Chemical Society

Dr. Peter Novick and the members of the STEM Research Club,

Dr. Paris Svoronos and the members of the Chemistry Club,

Dr. Patricia Schneider and the members of the Biology Club

Dr. Mangala Tawde and the members of the Environmental Sustainability Club

Father Anthony Rosado and the members of the Newman Club,

Mr. Simon Ulubabov and Ms. Isabel Hocevar and the members of the Health Club

Dr. Lawrence Bentley, Dr. Alexandra Tarasko, and the Nursing Students Association

The Future Teacher’s Society;

Ms. Maria-Francesca Berrouet and the members of the Haitian Club

Dr. Jun Shin and the members of the Korean Club

Ms. Amawati Gonesh and her colleagues at Single Stop

Ms. Grace Magee and Queensborough’s NYPIRG chapter

Ms. Gail Patterson and the faculty and students of the Health Related Sciences (HRS) Academy

Ms. Ellen Turner (Health Related Sciences Academy Administrative Assistant)

Faculty of the Department of Biology

Faculty of the Department of Social Sciences

Dr. Jonathan Cornick

Dr. Leah Anderst

Professor Elizabeth Di Giorgio

Dr. Nalini Sukhdeo

Dr. Dorith Brodbar

Dr. Annisa Moody

Dr. Christine Mooney
Dr. Philip Pecorino
Professor John Gilleaudeau
Dr. Amy Traver
Dr. Lana Zinger
Dr. Christine Mooney
Dr. Sharon Ellerton
Ms. Victoria O’Shea and the ASAP Club
Mr. Lawrence Nelson and the members of the Ally LBGTQ Club
Mr. Samuel Griffiths
Mr. Amir Moalemzadeh, Mr. Haris Khan and the Queensborough Student Association
Ms. Nicole Archie (PTK-member-at-large, who assisted at the Valentine’s Day Fling, which collected over five bags of food for the pantry on February 16, 2017)
Ms. Julie Leong, Lambda Sigma PTK President
Ms. Xiaofang Yu
Mr. Daniel Gamarra-Muñoz, Lambda Sigma PTK Vice President
Ms. Gisella Snailer, Lambda Sigma PTK Senator
Ms. Jennifer Kary Arenas
Ms. Virginia Villadiego
Ms. Ashley Rodriguez, and the faculty and student editors of the Queensborough *Communiqué*

As of this writing, two major events are planned to stock the Pantry:

A “Spring Ahead Food Drive” will be sponsored by the following campus organizations:

- Schmeller Library Faculty
- Student Health Club
- Queensborough Academy for Health Related Sciences
- NYPIRG
- College Discovery Club
- The Korean Club
- Affiliates of the American Chemical Society
- The Women in Science Club
- The Chemistry Club

- The Newman Club
- SACNAS QCC Chapter
- The Environmental Sustainability Club
- The Criminal Justice Academy
- The Biology Club
- The STEM Research Club
- The Haitian Club
- The ASAP Club
- The Muslim Student Association
- Ally LBGTQ Club
- Queensborough Student Association

Healthy Cooking, Past and Present is being tentatively planned for Wednesday, April 26, which will feature healthy recipes, including healthy favorites from the Medieval and Early Modern West, and Aztec tradition!

Dr. Zinger's class will also be presenting a table of information on Food Insecurity and Healthy Eating at the Student Health Fair on April 5, 2017.
